Version 1.0

**LET'S BEGIN**

E&OE

# PEUGEOT EXPERT

New PEUGEOT EXPERT features a renewed design, improved efficiency, the latest-generation connectivity and more sophisticated driving aids. It also retains the robustness, versatility and driving dynamics that have made it such a success with professionals.

Within the interior, the driving position has been extensively redesigned for greater comfort, ergonomics and practicality. The dashboard and steering wheel have also been redesigned, while the digital instrument cluster and the large central 10-inch touchscreen make the interface between driver and vehicle an enjoyable and efficient one.

# PANEL VAN

New PEUGEOT EXPERT Panel Van is available in a number of versions:

Standard (4.98m) or Long (5.33m) panel van,

Trim levels: Active & Professional

NEW PEUGEOT EXPERT

## PEUGEOT EXPERT | STANDARD EQUIPMENT BY TRIM

### Active + Professional

#### COMFORT AND CONVENIENCE

- 6-way Driver's Seat (Reach/Rake/Height) & Lumbar
- Manual/Electric Parking Brake (ICE/BEV)
- Manual Aircon w/air recirculation

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Peugeot Dealership for the most up-to-date prices and specification details for all models. CO<sub>2</sub> figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the

certified CO<sub>2</sub> emission output. WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other vans tested to the same technical standard. The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted pre and post registration; variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures.
